E. SESSION SUMMARY:

During this session, I was inside a very large object or structure. There were rows of seats arranged in a semi circular position with people sitting in the seats all looking in the same direction. There were aisles in between the seats. There may have been a person standing in front of the people sitting standing or speaking or demonstrating something.

The people who work inside this object or structure dress conservatively and their purpose is to help and serve others.

I had another aspect of the site but it is not the primary purpose but it helps to explain the site. There is a small structure that is square. People here walk outside of this small structure and they then meet someone or something.

Women are important to the work that goes on here.
